Docket No. 2020-27-T

To Whom it may concern:

May this letter serve as a written request for an extension of time for my Class C Non-Emergency Certification through May 31, 2021. Due to the severity of Covid19, along with vehicle title problems, I have not received my vehicle registration or tags from the North Carolina DMV. I have been unable to move forward in my certification process without these items. I have been assured by the dealer that these documents will be arriving the week of February 8th, 2021. I am requesting an extension of time up to and including May 31, 2021, This will allow me the time necessary to complete the certification process.

Best Regards,

Willena N. Hudgins
